Installation does not interfere with removal or installation of stock detachable windshield on Road King Models. This kit includes a 12-Pin Wiring Adapter that places control of the driving lights on the motorcycle's Accessory switch on '98-'13 Electra Glides and Street Glides. If you already have accessories wired to this switch, you will have to choose an alternative wiring method (sold separately). ## PANACEA TAILLIGHT SYSTEM

**COMPLETELY PLUG-&-PLAY, THIS SYSTEM ALLOWS THE STOCK REAR INCANDESCENT LIGHTING TO BE TRANSFORMED INTO A BRILLIANT MULTI-FUNCTION L.E.D. SYSTEM.**

	PANACEA	STOCK
RUN	 <p>Taillight &amp; Turn Signals Illuminate Red</p>	 <p>Only The Taillight Is Illuminated</p>
TURN	 <p>Selected Turn Signal Flashes Amber &amp; Amber Arrow Flashes On Appropriate Side Of Taillight. Other Turn Signal Remains Illuminated Red</p>	 <p>Turn Signal Flashes Amber. Taillight Remains Illuminated</p>
BRAKE	 <p>Taillight &amp; Turn Signals Flash Red 3 Times &amp; Then Taillight &amp; Turn Signals Remain Brightly Lit Until Brake Is Released. Turn Signal &amp; Arrow Will Continue To Flash Amber During Braking Function If Turn Signal Is Activated.</p>	 <p>Only Taillight Brightens</p>

Note: Flashing Function Can Be Disabled Via The Control Module.

### HOW TO ORDER:

- 1 SELECT A PANACEA TAILLIGHT FOR YOUR SPECIFIC APPLICATION
- 2 SELECT PANACEA REAR TURN SIGNAL INSERTS FOR YOUR SPECIFIC APPLICATION
- 3 SELECT L.E.D. FRONT TURN SIGNAL CONVERSIONS FOR YOUR SPECIFIC APPLICATION (OPTIONAL - PG 44)

### IMPORTANT INFORMATION ABOUT PANACEA TAILLIGHTS

- 1 All wiring for trailer lights must be spliced into the wiring harness ahead of the Panacea Control Module.
- 2 If the rear of the motorcycle is equipped with any incandescent lights that were not original equipment, such lights must be spliced into the wiring harness ahead of the Panacea Control Module. Police models are often equipped with additional lights not found on their civilian counterparts. Be aware that these lights must be rewired, removed, or converted to L.E.D. prior to installing a panacea system.
- 3 The Panacea Taillight system meets FMVSS #108 when operated in "DOT mode". There is no provision in FMVSS #108 for flashing brake or amber arrows so those features are disabled when operated in "DOT mode".
- 4 Panacea Taillights can be used on '97-'01 Dynas, '96-'01 Fat Boy & FXST (except Deuce), & '99-'01 XL models, but they must be used with stock turn signals. Panacea Turn Signals are not available for these applications.

### WHY USE PANACEA REAR TURN SIGNAL INSERTS?

L.E.D. Silver Bullets, stock turn signals, or other custom single filament lights can be used with the Panacea Taillight System but they will function as turn signals only. The Panacea Taillight will retain all of its functions (run, pulse brake, & amber directional arrow). To Realize the Full Benefit of Two-Color, Multi-Function Turn Signals Made Possible by the Panacea System, You Must Use Panacea Rear Turn Signal Inserts.

## CONTROLLERS & FLASHING MODULES

### REAR RUN-TURN-BRAKE CONTROLLER WITH PULSE BRAKE

Make single filament or single circuit rear turn signals function as running lights, turn signals, and brake lights! Can be used with Kuryakyn L.E.D. Silver Bullets, stock turn signals (red lenses sold separately) or any single filament light. Completely plug-&-play for most '96-newer H-D's. Compatible with '02-later H-D factory cruise control. Pulsing Brake feature can be turned on/off easily. '97-'13 Tour-Pak lighting can also be converted from stock Run-Brake to multi-function Run-Turn-Brake! One kit converts your stock taillight, turn signals and Tour-Pak lights.

Note: Boards should not be installed in place of a footpeg on a peg mount secured with a single fastener and no anti-rotation mechanism. The board will apply too much force and loosen the mount from the bike. Passenger applications for Softail and Dyna requires Anti-Rotation Floorboard Mounts for installation. Installation on other models in place of a male mount footpeg requires P/N 8883. Applications for Softail & Dyna Require Anti-Rotation Mounts. Installation On Other Models In Place of a Male Mount Footpeg Requires Splined Adapter, P/N 8883

## PASSENGER PEGS: FIXED & ADJUSTABLE

4505, 4570, 7926, 4571

### ADJUSTABLE PASSENGER PEGS

Give your passenger multiple foot placement options, much like a highway cruise peg for riders. The Adjustable Passenger Pegs bolt onto your bike's existing rear floorboard mount, retaining all functions of the stock boards with the added benefit of new higher and farther-forward riding positions. By providing relief from the fatigue caused by the limitations of stock floorboards, the Adjustable Passenger Pegs are a must-have for two-up travelers.

## **CRUSHER**

### **CRUSHER® MARKSMAN™ 4" SLIP-ONS**

Tactfully designed with the precision of a deadeye. Visible stainless steel inserts covertly expose laser-cut Crusher emblems spanning the top perimeter of the tips. High-flow baffles with shallow-cut louvers create less turbulence inside the mufflers for improved performance throughout the RPM range. An aggressive bark at full throttle eases into a deep, low rumble at cruising speeds. Made in the U.S.A. high-temp black ceramic-coated steel.

- 4" Muffler diameter

**TRAILER WIRING HARNESES**

Safely and effectively apply the load from your trailer lighting to the battery and not to the rest of the bike's electrical system. Eliminate blown fuses caused by overloading stock lighting or accessory circuits. - 5 Wire Plus 1: Our kits provide standard 5-wire output (run, brake, left turn, right turn, ground) plus a bonus wire that can be connected as needed to provide fused 12V power to the trailer for compartment lights or keyless entry systems that are wired independently of the trailers essential lighting.
- 5 to 4 Wire Converter: Plugs in and allows our Wiring and Relay Kits to power trailers requiring a 4-wire harness (run, left turn/brake, right turn/brake, ground). The bonus wire is still available to provide fused 12V power to the trailer for compartment lights or keyless entry systems that are wired independently of the trailers essential lighting.
