

PERFORMANCE PARTS for
MILWAUKEE-EIGHT® ENGINES

**NEW FOR
2022**

DIAMONDBACK 2-1

for 2017–2022 M8 touring models

S&S was building Performance Baggers long before it was called that and our focus has always been on making big power! The Diamondback 2-1 Exhaust System is a perfect example of our commitment to true performance. Beginning with a stepped header for maximum flow and a merged collector specifically engineered to prevent exhaust gas reversion, this system wraps up with a 4" full stainless muffler that ends before the rear axle. Diamondback is not for your Daddy's bagger, but purpose built to make big power and sound, excellent cornering clearance and just the right look. Cleared for tall shocks and available in brushed stainless or Guardian Black.

Features & Benefits:

- 2-1 full stainless system (with shields!)
- Oversize header primary tubes for optimum flow and performance
- Just enough length to make big power on your M8
- Four bungs for easy O2 sensor installation and air/fuel monitoring
- Computer aided design & precision bending for improved ground clearance
- Available in Brushed Stainless Steel or super durable Guardian Black Finish
- 50 State legal fitment available! CARB EO# K-010-20
- Made in USA!

DIAMONDBACK 2-1 FOR 2017–2020 M8 FL MODELS — 50 STATE

AIR CLEANER KITS & COVERS

TUNED INDUCTION AIR CLEANER KITS

for 2017–2021 M8 models

Air flow is everything in a performance engine and naturally, it begins at the air filter. Factory units are downright boxy and can be very restrictive. The S&S Cycle Tuned Induction Air Cleaner uses two laser cut and highly engineered tubes merged into a single collector and fed by a pair of high flow air filters placed directly in unobstructed air stream. The end result is maximum performance for your engine and a stylish package.

- Bolt-on performance—over twice the filtering area of stock intake system
- Increases horsepower and torque across the rpm range using air column inertia and timed gas dynamic pressure waves
- Smooth intake tract of carefully selected tuned lengths increases performance
- High flow washable and reusable cotton media filter elements
- Tig welded
- Available in chrome, gloss black powder coat, or brushed stainless steel finish
- Water resistant rain socks also available (part # 106-0248)

TUNED INDUCTION AIR CLEANER KIT

FINISH	PART #	MSRP
Gloss Black	170-0565A	\$427.95
Chrome	170-0566A	\$427.95
Stainless Steel	170-0565A	\$427.95

Exempt from emissions tampering regulations under CARB EO# D-355-37

The Tuned Induction System will not fit on motorcycles equipped with fairing lower glove boxes or Twin-Cooled™ models

AIR STINGER™ STEALTH AIR CLEANER KITS

for 2017–2021 M8 models

The Air Stinger takes the existing high flow Stealth air cleaner and replaces the air smoothing stinger with a similarly shaped filter element. More filter surface equals a 55% gain over a factory filter in an M8.

Also available with the classic Mini Teardrop cover in black or chrome or as a replacement cover plate to update your existing Stealth system. The Air Stinger filter element is washable just like the Stealth filters and designed to last for years.

TEARDROP FINISH	PART #	MSRP
Gloss Black	170-0718	\$395.95
Chrome	170-0717	\$395.95
WITH S&S RING		
Brushed Ring	170-0714	\$213.95
AIR STINGER™ FILTER ONLY	170-0723	\$64.95

NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLE

*Qualified Manufacturer Declared 49-State Federal Emissions Compliant Part

STEALTH AIR CLEANER KITS

See previous page for Air Stinger Kits

Fitment:

- 2017–2021 HD® models with M8 engine
- Works with Screamin' Eagle® 64mm throttle body

Features & Benefits:

- Included actuator cover, hides TBW servo motor for a clean, attractive installation
- Backplate made from high-strength advanced synthetic polymer—reduces heat transfer to intake air
- Use with your stock HD M8 engine air cleaner cover (Adapter required—see below)
- High flow (1" taller) filter kit available (P/N 170-0127*)
- Cooler, denser air allows for more efficient cylinder fill & better performance

HIGH FLOW AIR FILTER KITS

Fitment:

- S&S Stealth Air Cleaners

Features & Benefits:

- Low restriction filter element comes pre-oiled for true plug and play installation
- 1" wider filtration area provides up to 37% more airflow over standard S&S filters
- Resulting band of exposed filter material imparts a high performance look

Kit Contents

- Wide filter
- Filter spacers

124" POWER PACKS

107" to 124" Big Bore Kit:

- Available with or without fin highlighting
- Bolt-on kit—*No case machining required*
- 4.250" bore
- Forged pistons
- 11:1 compression ratio

Oil Pump/Cam Plate:

- Precision machined from billet aluminum
- Independent scavenge sections for flywheel cavity & cam chest
- Debris screens in both scavenge pickups
- Magnet in cam chest to help to stop debris from entering oil pump
- 44% flow increase on supply side & 58% flow increase on scavenge side
- Pressure relief valve is adjustable with unit installed in engine
- Kits now include updated oil pump with groove for optional OEM oil seal

Pushrods:

- Quickee pushrods
- Chrome or gloss black pushrod tubes available

Tappets:

- Hand assembled to exacting tolerances
- Reduced valve train noise from start up to shut down
- Close tolerances for low leak down rates
- Fast pump up and superior high rpm performance

Tappet Cuffs:

- Hard anodized black coating
- Billet aluminum construction
- Improve tappet stability in high lift & high rpm situations

Cam:

- S&S 550 cam—*Designed for big bore applications*
- Available in both gear drive & chain drive variations
- Gear drive kits provide improved cam timing accuracy
- Gear drive kits include outer drive gears

Valve Springs:

- High performance conical single wire spring
- Includes top collars, keepers, & valve seals/bottom collars

Cam Chain Tensioner

- Comes with Chain Drive Kits
- Precision Machined from Billet Aluminum
- Thicker shoe for longer wear
- Direct chain oiling
- Larger piston for more consistent pressure
- Tighter tolerances improves stability

S&S does not recommend compression ratios higher than 10:1 for Tri Glide® or other three wheel models (including conversions) due to extra loads caused by the lugging nature of these bikes. Detonation and subsequent engine damage may result.

3 PIECE FLYWHEEL ASSEMBLIES

The crankshaft is the heart of any performance engine and S&S Cycle has been perfecting the art for over six decades. Stronger, more durable, and tried to a spec others can only dream of, our new crankshaft assemblies for the M8 platform are the best of the best to build your high performance engine around.

Features & Benefits:

- Available in 4 3/8", 4 1/2" & 4 5/8" Stroke
- Available with or without Balancer Gear
- Heat Treated 4140 Material is harder & more than twice as strong as stock
- Stronger assembly eliminates need to weld crankpin
- S&S High Strength Connecting Rods are designed with Finite Element Analysis to eliminate weak spots and handle more power!
- Available with either full width or tapered wristpin connecting rods
- Perfect for Gear Drive Cams
- Consistent balance & precision machining
- Capable of higher RPM

Lower End

FLYWHEEL ASSEMBLIES FOR 2017–2021 M8 MODELS

 WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov

S&S does not recommend compression ratios higher than 10:1 for Tri Glide® or other three wheel models (including conversions) due to extra loads caused by the lugging nature of these bikes. Detonation and subsequent engine damage may result.

TOP END GUARDIAN KIT

The M8 engine platform is capable of serious power, but it also has a few weak spots. The new S&S Cycle Guardian Kit is designed to update the top end to better support big bore and cam mods. If you're doing a 124/128/131 conversion this kit is a must have!

- **Everything you need** to update top end in one convenient kit!
- **Rocker arm shafts** are 66% stronger than stock
- **Rocker arm stud kit** extends the life of your cylinder heads by preventing damage to the rocker arm towers
- **Head bolt kit** is made of 8640 heat treated steel with 200,000 psi Ultimate Tensile strength cold rolled threads & formed washer make these head bolts durable & reusable
- **Roller rocker arms** help relieve additional stress caused by high lift camshafts running at high rpm!

TOP END GUARDIAN KIT

475 PERFORMANCE CAM KIT WITH TUNER

Fitment:

- 2017–2019 touring models

Features and benefits:

- Bolt-in, legal performance
- Choose between chain or gear driven cam kits
- No need for expensive dyno tuning
- Display vehicle data channels in real-time
- Weather-resistant for use in all conditions
- High contrast display, viewable in direct sunlight

Not yet available for 2020 or 2021 models

475 PERFORMANCE CAM KIT FOR 2017–2019 M8 MODELS

475 Chain Drive	330-0725	\$588.95
475 Gear Drive	330-0726	\$775.95

Exempt from emissions tampering regulations under CARB EO# D-355-32

NOTES

Designed to work specifically with our Stealth air cleaner kits and Mk45 mufflers with a stock header or our El Dorado exhaust system

STOCK vs S&S 475 CAM

on a 2017 touring bike— with Stealth Air Cleaner and El Dorado Exhaust System

CAMSHAFT SPECS

350: Stock specs, but eliminates cam drive chain & tensioner

465: Bolt-in cam designed to make best power from 1500–4500 RPM. Excellent low and mid-range torque make this a great choice for two-up riding and touring where low end grunt is the priority. Works great with stock bore, heads and throttle body and with compression ratios up to around 10:1.

475: Bolt-in cam providing best power from 2200–5200 RPM in engines with displacements from 107–135 cubic inches. Compatible with compression ratios up to 11:1. Works great with stock heads and throttle body for mid range power but with the ability to stretch the power higher into the RPM band with more mods.

540: Designed to add even more stump pulling torque to your big bore M8, for those that keep the revs below 6000 RPM when combined with 124 & larger big bore kits.

550: High lift cams for maximizing peak torque and horsepower. Designed to make top end power in combination with our big bore cylinder and piston kits. Excellent power from 3000 RPM to redline. Requires performance valve springs and adjustable pushrods. Suitable for compression ratios between 10:1 and 12-1.

590: Designed as an all out Horsepower Cam for 124 and larger engines. Big lift lets your big mill breathe high into the RPM range!

CAM KITS

Fitment:

- 2017–2021 touring and 2018–2021 Softail® models

Features & Benefits:

- **350G** gear drive cam has stock specs, but eliminates cam drive chain & tensioner
- **465** Cam is designed for touring applications, focusing power in lower RPM range and substantial increase in torque
- **475** Cam bumps HP to over a 100 and makes bigger power towards top end of RPM range
- **540** Cam was designed to add even more stump pulling torque to your big bore M8
- **550** Cam was designed for maximizing peak torque and horsepower
- **590** Cam is designed as an all out Horsepower Cam for 124 & larger engines
 - Big lift lets your big mill breathe high into the RPM range!
- Cam kits include all required bearings, o-rings, and hardware
- Gear drive cams provide improved valve timing accuracy
- Made in the USA
- S&S Camshaft installation kits* for M8 models include the essentials for performance cam installations: a high quality inner needle bearing, cam cover gasket, o-rings and gear drive specific hardware on gear drive kits are bundled with step by step instructions to smooth out your bumpstick install

Gear Drive Installation Kit	330-0623	\$49.95

OIL CONTROL VALVE

Often ignored, the factory oil control valve on all oil cooled M8 engines regulates the amount of oil flowing to the oil cooler/heads.

The stock assembly includes a check ball retainer that is formed steel. Over time, this retainer can fatigue and break, causing chips to flow through the oil system, back into the tank and can cause significant damage along the way.

- The S&S oil control valve is constructed of 6061 billet aluminum and the check ball retainer is machined from high strength steel for long-lasting durability. Don't risk the integrity of your performance engine!
- High-Strength Billet Construction
- Easy to Install

OIL CONTROL VALVE

310-1150

\$42.95

*Don't let this happen to you!
Your M8 engine is too valuable not to protect.*

CAM CHAIN TENSIONER

Fitment

- 2017–2021 M8 models

Features & Benefits:

- Precision Machined from Billet Aluminum
- Thicker shoe for longer wear
- Direct chain oiling
- Larger piston for more consistent pressure
- Tighter tolerances improves stability

CAM CHAIN TENSIONER FOR M8 MODELS

330-0737

\$90.95

CAM PLATE & OIL PUMP KITS

Fitment:

- 2017–2021 touring M8 models

Oil Pumps

- Precision machined from billet aluminum
 - Independent scavenge sections for flywheel cavity and cam chest
 - Debris screens in both scavenge pickups
 - Magnet in cam chest to help prevent debris from entering pump
- Pressure relief valve can be adjusted with unit in engine

Cam Plate

- Precision machined from billet aluminum
- Passage plugs removable for servicing
- Bronze bushings for better lubrication & improved wear characteristics

Kits

- Buy together and save \$\$

- 44% flow increase on supply side and 58% flow increase on scavenge

CAM PLATE & OIL PUMP KITS FOR M8 MODELS

Description	Part #	MSRP
Cam Plate & Oil Pump/Oil-Cooled	310-0998B	\$802.95
Cam Plate & Oil Pump/Water-Cooled	310-0997B	\$802.95

Description	Part #	MSRP
Oil-Cooled	310-0959A	\$534.95
Water-Cooled	310-0947A	\$534.95

CAM CHEST KITS

Fitment:

- 2017–2021 HD® touring models
- 2018–2021 HD Softail® models

Oil Pump/Cam Plate:

- Precision machined from billet aluminum
- Passage plugs removable for servicing
- Independent scavenge sections for flywheel cavity and cam chest
- Debris screens in both scavenge pickups
- Magnet in cam chest to help to stop debris from entering oil pump
- 44% flow increase on supply side and 58% flow increase on scavenge
- Pressure relief valve is adjustable with unit installed in engine
- Kits now include updated oil pump with groove for optional OEM oil seal

Pushrods:

- Quickee Pushrods
- Chrome or Gloss Black pushrod tubes available

Tappets:

- Hand assembled to exacting tolerances
- Reduced valve train noise from start up to shut down
- Close tolerances for low leak down rates
- Fast pump up and superior high rpm performance

Tappet Cuffs:

- Hard anodized black coating
- Billet aluminum construction
- Improve tappet stability in high lift & high rpm situations

Cam:

- S&S 465, 475, 540, or 550 cam
- 465 is a torque cam—*perfect for touring applications*
- 475 is a bolt-in 100hp cam!
- 540 is designed to add even more stump pulling torque to your big bore M8, for those that keep the revs below 6000 rpm. Requires the addition of valve springs (*included in kit*)
- 550 is designed for use with large displacement engines. Requires the addition of valve springs (*included in kit*)
- Available in both gear drive and chain drive variations
- Gear drive kits provide improved cam timing accuracy & eliminate the stock cam chain tensioner

Valve Springs:

- Comes with the high lift kits, 540 & 550
- Works with cams up to .605 lift
- High Performance Conical Single Wire Spring includes: Springs, Top Collars, Keepers, Valve Seal/Bottom Collar

Cam Chain Tensioner

- Comes with Chain Drive Kits
- Precision Machined from Billet Aluminum
- Thicker shoe for longer wear
- Direct chain oiling
- Larger piston for more consistent pressure
- Tighter tolerances improves stability

INCLUDES ALL GASKETS, BEARINGS, & HARDWARE REQUIRED FOR INSTALLATION
MADE IN USA

TAPPET CUFFS

Factory tappet guides are constructed of plastic and are at risk for allowing the tappets to twist under heavy stress. S&S Tappet Cuffs capture the tappets without impacting vertical motion and keep them perfectly aligned, even in high stress, high RPM situations

Fitment:

- 2017–2021 touring models
- 2018–2021 HD® Softail® models

Features & Benefits:

- Hard anodized black coating
- Billet aluminum construction
- Stronger material eliminates distortion
- Improve tappet stability in high lift and high rpm situations
- An easy upgrade when changing tappets or doing a cam change

TAPPET CUFFS

Fitment	Part #	MSRP
2017–2021 HD® touring models 2018–2021 HD Softail® models	330-0655	\$70.95

PRECISION TAPPETS

High performance tappets are a cornerstone of the S&S line up and we are always looking to improve our products. After months of research and countless hours of testing we are excited to reveal the latest in performance tappets. The S&S Cycle Precision Tappets replace both our standard as well as premium atappets. Each Precision Tappet is hand assembled to exacting tolerances and designed for quiet operation and rapid pump up and all are made in the USA.

Fitment:

- 2017–2021 big twins with M8 engine

Features & Benefits:

- Reduced valve train noise from start up to shut down
- Close tolerances for low leak down rates
- Fast pump up and superior high rpm performance

PRECISION TAPPETS

Set of 4 tappets	330-0718	\$253.95
------------------	-----------------	----------

QUICKEE ADJUSTABLE PUSHRODS

Fitment:

- 2017–2021 big twins with M8 engine

Features & Benefits:

- Adjustable to accommodate all tappets and cam base circle diameters and engine heights
- Easy to install—removal of rocker box not needed
- No threads on wrench flats
- Also available in gloss black

Kit Contents

- Pushrods, gloss black or chrome pushrod covers, o-rings, and cover keepers

QUICKEE ADJUSTABLE PUSHRODS

Description	Part #	MSRP

NOTES S&S quickee pushrods require S&S aftermarket tubes.

ROCKER ARM SHAFT SET

- M8 Rocker Arm Shafts are a direct replacement for OEM (HD® part #17300059B)
- Improved durability
- Made from bearing quality steel, precision centerless ground for perfect fit!
- S&S Shafts are 66% stronger, preventing damage from radical cam profiles

S&S recommends installing Rocker Stud kit 900-1013. See next page.

ROCKER ARM SHAFT SET | 900-1090 | \$160.95

FORGED ROLLER ROCKER ARMS

Big lift cams can open up the high rpm potential of the M8 powerplant, but they can also cause their own issues due to the extra stresses and stock valve train geometry. Excessive valve thrust and valve train wear inspired S&S engineers to design stronger, more durable components that will help you get the most out of your M8.

S&S Forged Roller Rocker arms for M8 models are stronger, more durable and easier on the rest of your valve train, and are essential for increasing the longevity of your valve train components on cams with .540" or greater lift!

Features & Benefits:

- Forged from 8620 steel for greater strength
- Designed using Finite Element Analysis (FEA)
- Rollers eliminate thrusting on valves for decreased wear on the valve train
- Rocker geometry is better suited to high lift cams
- Larger surface area on the thrust surfaces reduces wear on the heads
- Oil is sprayed directly on the valve springs, reducing potential for breaking a valve due to over-heating
(stock rockers tend to oil the rocker boxes, not the valves)
- Compatible with stock or S&S CNC heads
- 1.640 Ratio
- Capable of .650" max Valve Lift
- Serviceable and rebuildable for long term durability
- A must have for cams with .540" or greater lift!

FORGED ROLLER ROCKER ARMS

S&S Forged Roller Rocker Arms for M8 Models	900-1084	\$590.95
Rebuild Kit	900-1087	\$141.95

ROCKER ARM STUD KIT

Features & Benefits:

- Aircraft grade C4037 steel stud and I2 point nut
- Allows for removal of rocker arm assemblies without damage to the head
- A must have for performance builds

ROCKER ARM STUD KIT

Recommended for use with S&S Power Packs and Big Bore Kits for M8

INNER PRIMARY BEARING RACE

Fits:

- 2017–2021 M8 models

Features & Benefits:

- Will not "walk" on transmission mainshaft
- Prevents costly damage to mainshaft seal, output gear & output gear bearing
- Simple to install

INNER PRIMARY BEARING RACE	560-0241	\$72.95
----------------------------	-----------------	---------

55MM PERFORMANCE MANIFOLD

Big bore engines are all about the flow, more air in and more air out, anything that slows that down, robs horsepower. The factory M8 intake manifold does a decent job in stock form, but starts getting in the way when trapped between 124" and larger cylinders. The stock polymer unit is also less tolerant of the additional heat that a big bore engine can make at full noise. The solution is the new S&S high flow cast aluminum manifold and a must have for top level performance in the M8 platform.

Features and Benefits

- High-Flow, adds 3–5 hp
- Must have for big bore engines
- CNC Machined
- T6 heat treated cast aluminum
- Replaces stock, plastic manifold
- Includes new rubber seal
- Easy to Install

FITMENT	PART #	MSRP
2017–2021 HD® M8 models	160-0241	\$203.95

FOR CLOSED COURSE COMPETITION USE ONLY. NOT INTENDED FOR STREET USE. LEGAL IN CALIFORNIA ONLY FOR RACING VEHICLES WHICH MAY NEVER BE USED, OR REGISTERED OR LICENSED FOR USE, UPON A HIGHWAY. NOT LEGAL FOR SALE OR USE NATIONWIDE ON ANY FEDERAL POLLUTION CONTROLLED MOTOR VEHICLE UNDER THE CLEAN AIR ACT.

S&S® LUBRICANTS

Features & Benefits:

- Ultimate protection
- Superior lubrication for reduced engine wear and lower oil temperatures
- Provides consistent viscosity, and resists thermal breakdown and oxidation at elevated temperatures
- Includes a oil drain plug o-ring

S&S® OIL CHANGE KIT

Description	Part #	MSRP
2017–2021 HD® Models with M8 engine 5 quarts of SAE 20W-50 Synthetic Engine Oil with chrome oil filter	3601-0492	\$117.95

S&S® OIL

Description	Part #	MSRP
20W50 Synthetic, 1 quart	3601-0407	\$17.95
20W50 Synthetic, 2.5 Gallon	3601-0408	\$157.95
Primary, Synthetic, 1 quart	3603-0044	\$17.95
80W140 Gear, Synthetic, 1 quart	3604-0007	\$17.95

OIL FILTERS

Features & Benefits:

- Captures smaller particles than stock filters
- Low restriction to oil flow
- Direct bypass—bypass oil does not pass over dirty filter media
- Smaller diameter for easier installation
- Black or chrome finish

S&S® OIL FILTERS
